M2C Group Expands Its Portfolio with the Acquisition of VSP security service s.r.o.

M2C Group announces that, as of January 6, 2026, VSP security service s.r.o. has become a new member of the M2C Group. Its sole shareholder is now the parent company of the group, Mark2 Corporation Investment SE. Ms. Kateřina Nováková, M2C Group's HR Director, has been appointed as the company's new Managing Director.

VSP security service s.r.o. has been operating on the Czech market since 2006 and specializes primarily in physical security services, supplementary security solutions, and related activities within the scope of facility management.

The company's estimated annual revenue for 2025 is approximately CZK 38 million, with projected operating profitability (EBITDA) of around CZK 3 million. The company's financial results will be included in the consolidated financial statements of the M2C Group for the year 2026.

Strategic Importance of the Acquisition:

This acquisition is part of M2C Group's targeted expansion of its service portfolio, with a focus on covering specific market segments that have not been fully served to date. Through this transaction, M2C strengthens its capacity in the area of traditional security services and gains access to contractual relationships that are relevant, for example, in the context of substitute performance obligations. Considering the current requirements of certain public and private sector clients, this may represent an important addition to the Group's existing service offering.

Relevance to Post-IPO Strategy:

Although this is not the anticipated acquisition in the field of technology solutions, the transaction aligns with M2C Group's stated strategy to enhance the revenue stability and profitability of its core business activities.
